Abrham Habtamu

Full-Stack Developer

About Me

Hello! I'm Abrham Habtamu, a recent Computer Science graduate from Unity University and a passionate Full-Stack Developer. I have technical expertise in modern web technologies, including HTML, CSS, JavaScript, React.js, Tailwind CSS, TypeScript for front-end development, and Node.js with Express.js for back-end development. I work with databases such as MongoDB and MySQL, and I use REST APIs and Postman for API development and testing. I take pride in being detail-oriented and an effective problem solver, always eager to create responsive, user-friendly, and fully integrated web applications from front-end interfaces to back-end logic and database management. With a strong foundation in computer science and hands-on experience in full-stack development, I am committed to delivering innovative solutions and continuously expanding my skill set. I am now seeking opportunities where I can apply my development skills to real-world business systems, automation workflows, and technical operations.

Education and Training

Jun 2022- April 2026 Addis Ababa, Ethiopia

Bachelor of Science in Computer Science Unity University

- Web development
- Database
- E-commerce
- Operating-systems
- Data-structures and Algorithms

Website www.uu.edu.et **Field of study** Computer Science **Final grade** 3.2 **Number of credits** 144
degree Status Completed and Waiting to recive the certificate/To be Recived

July 2025

INSA Cyber Talent Summer Camp

- Full-Stack Web developement

Training Extension Full Summer **Achivement** Certificate of Participation (To be recived)

Digital Skills

Front-end : HTML, CSS, javaScript, React.js, TailwindCSS, SCSS

Back-end: Node.js, Express.js

Programming Language : javaScript, TypeScript

Version Control Systems : Git & Github

Databases: MySQL, MongoDB

API : REST api

API test : Postman
